Pricing Guide (not applicable to Other Services and CV Writing Service pages)

Our pricing is simple.

We realise that many of our clients are on tight budgets, but still require a flexible, quality service. Whilst many editing sites charge by the word or hour, we are more than happy to continue grading our prices by the most cost-effective means: per page of document.

All proofed and edited documents are supplemented with free, detailed editorial appraisal, along with a “Tracked Changes” duplicate. We edit, format and reference according to your university’s specifications.

Our solutions can be flexibly mixed and matched to suit your every need.

Tips (not applicable to Other Services & CV Writing Service pages)

To trim your final costs, why not single-space your document before sending it to us?

When e-mailing us, please include the following information: required service(s), topic, assignment type, deadline, word count, the number of pages you wish revised, and any other information you feel appropriate.

Please make sure that your document is Microsoft Word compatible and set with 10 point font or more.

We also have a Postgrad Essay Editing Package (edit + referencing + bibliography) and Undergraduate Term-Time Bundles for sell, too!

Important Information (not applicable to Other Services & CV Writing Service pages)

The estimated final cost of your project will be sent to you in an invoice.

Your invoice breaks down the costs of your project. A 50% deposit of the final cost is always required before commencing work. Your deposit acts as a contractual agreement between you and SibleyEdit.
